

Tello_landmark_version_orders

Take off

Land

Upwards

Downwards

To the left

To the right

Back of the
hand should
show in
direction of
the camera

Fowards

Backwards

Turn right

I

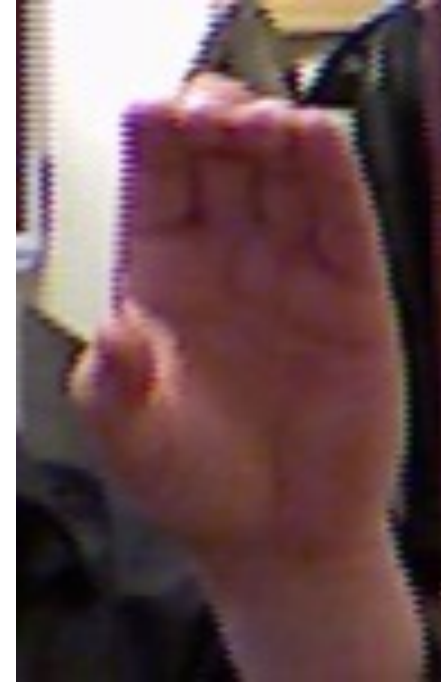

Turn left

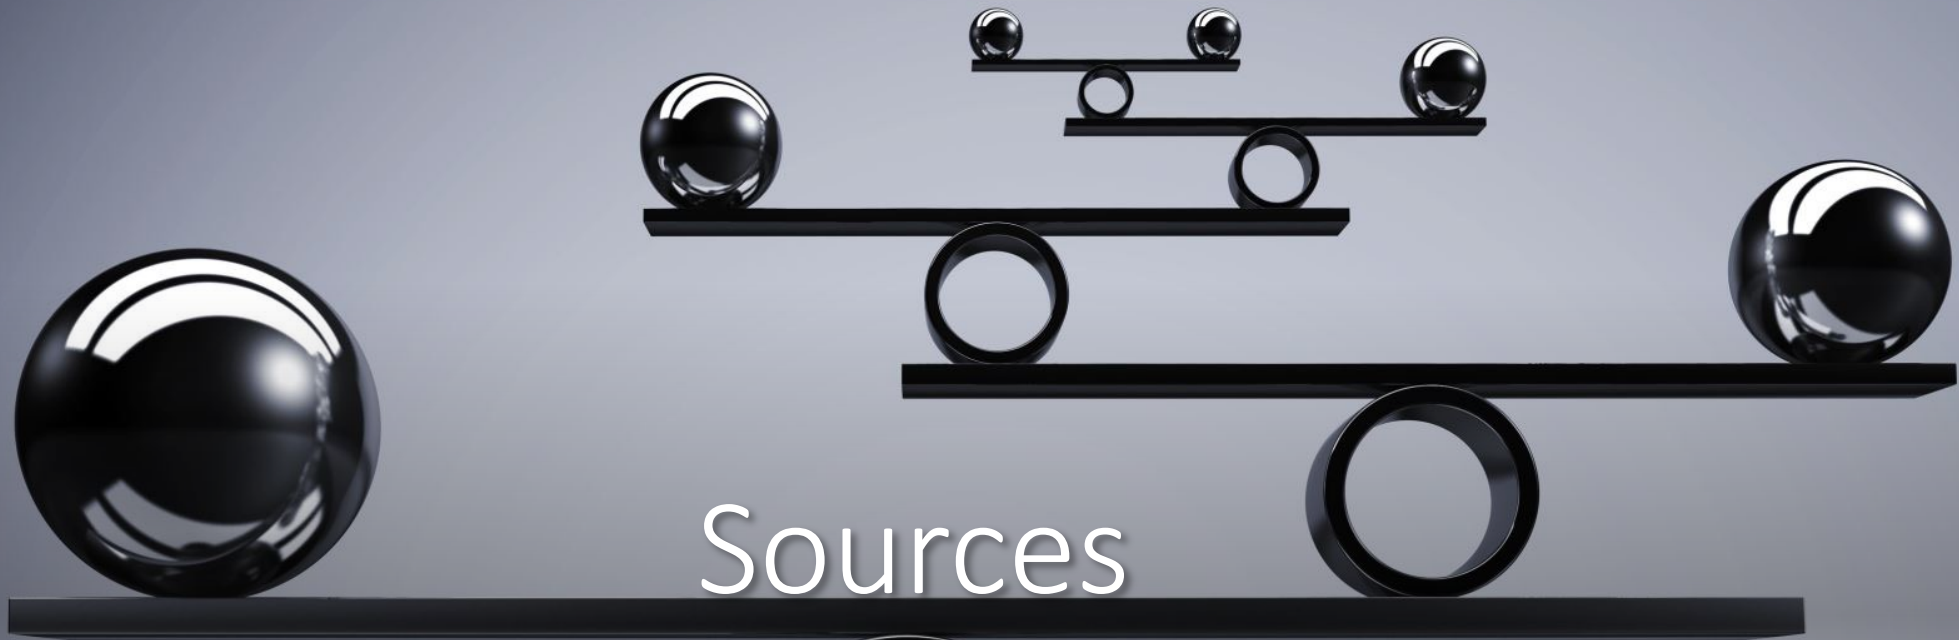

Flip

Your palm should show
in direction of the
camera: like this :

Note: The bound script may has more orders, but its recognition is in comparison of the model with the landmarks inferior(which only has 9 orders(can not turn left or right), but has almost a 100% accurency)
